Professional Summary

Full-Stack Developer with 3.5+ years of experience building scalable SaaS platforms, automation systems, and high-performance web applications using Next.js, TypeScript, Node.js, PostgreSQL, and MongoDB. Experienced in designing REST APIs, authentication systems, CI/CD pipelines, and cloud deployments. Delivered production-grade solutions across real estate, marketing automation, AI-powered applications, and agritech platforms. Passionate about leveraging technology to solve complex problems and drive business growth. Strong communicator and collaborator with a track record of working effectively in cross-functional teams.

Technical Skills

Category	Technologies
Languages:	JavaScript, TypeScript, SQL
Frontend:	React.js, Next.js, Redux, Tailwind CSS
Backend:	Node.js, Express.js, NestJS, REST APIs, tRPC
Databases:	PostgreSQL, MongoDB, Redis
DevOps:	Docker, GitHub Actions, CI/CD, Vercel
Tools:	n8n, Clerk, Stripe, Postman, Figma
Cloud:	AWS (EC2, S3), GCP (Firebase)

Professional Experience

Leanitech — Full-Stack Developer *Feb 2023 – Present* Bengaluru, Karnataka, India

- Delivered 40+ client projects across SaaS, real estate, healthcare, and e-commerce domains.
- Reduced average API latency from 500ms to 300ms through query optimization and indexing strategies.
- Designed multi-tenant SaaS architectures, scalable database schemas, and REST APIs for production applications.
- Implemented RBAC authentication supporting 5+ user roles and secure access controls.
- Built CI/CD pipelines using GitHub Actions and Vercel deployments.
- Integrated Stripe billing, Redis caching, and event-driven notification workflows.

Stackkaroo — MERN Stack Developer *Dec 2022 – Mar 2023* Odisha, India

- Built responsive web applications using React.js, Next.js, and CSS with adaptive layouts across multiple screen sizes.
- Developed the company website and other sites using plain CSS and Material UI.
- Improved application performance and code reusability by implementing best practices and optimizing components, resulting in faster load times and enhanced user experience.
- Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality web applications that meet business needs and user expectations.

TrueSkills — Frontend Web Developer *Aug 2022 – Nov 2022* Siliguri, West Bengal, India

- Redesigned user interface to enhance user experience and engagement.
- Implemented responsive design principles for seamless functionality across devices.
- Used funnel builder tools to create visually appealing and conversion-focused landing pages.
- Collaborated with marketing team to optimize funnel performance and drive higher conversion rates.

Key Projects

- **Real Estate Management Platform:** *Preview*
  Technologies: T3Stack, StreamIO, Novu, PostgreSQL, Arcjet, Cloudinary, Vercel
  - Built real-time property exchange platform with integrated chat and notifications.
  - Implemented StreamIO messaging and Novu notification services.
  - Designed PostgreSQL schema and Cloudinary-based media management.
  - Secured and deployed the platform using Arcjet and Vercel.
- **SaaS Bulk Email Marketing Tool:** *Preview*
  Technologies: Next.js, TypeScript, PostgreSQL, Drizzle ORM, Redis, Clerk
  - Built multi-tenant email marketing platform supporting campaign creation and analytics.
  - Implemented authentication using Clerk and role-based access control.
  - Developed Redis-based email queue capable of processing thousands of emails asynchronously while preventing rate-limit issues.
  - Designed PostgreSQL schema with Drizzle ORM for scalable data management.

- **Comic Scene Generator:** *Preview*
  Technologies: Electron.js, Node.js, Midjourney AI, polling mechanism, Archiver.js
  - Built desktop application using Electron.js for cross-platform compatibility.
  - Integrated Midjourney AI for API-based image generation.
  - Implemented polling mechanism to check for image generation status and retrieve results.
  - Developed functionality to generate comic scenes and provide bulk zip downloads using Archiver.js.
- **Chokhaa Store:** *Preview*
  Technologies: Shopify, Custom Theme Design, Custom Liquid Development, Razorpay Integration
  - Developed custom Shopify storefront using Liquid and theme customization.
  - Integrated Razorpay payments and product customization workflows.

Open Source Contributions

- **Devtools Blocker:**
  - Built a React 18+ and TypeScript-compatible DevTools control hook to address compatibility limitations found in existing solutions.
- **React WhatsApp Widget:**
  - Built a Tailwind CSS and Shadcn/UI-friendly WhatsApp widget hook to solve customization and compatibility challenges found in legacy implementations.
- **Rainbow Color Generator:**
  - Created a TypeScript-first color generation utility to modernize older implementations lacking strong typing and modern ecosystem compatibility.
- **IFSC Code Validator:**
  - Built a TypeScript-first IFSC validation utility using the official Razorpay bank dataset to improve reliability and modern ecosystem compatibility.
- **EXIF Parser:**
  - Modernized image metadata extraction with strong TypeScript support and simplified APIs for contemporary applications.

Education

Bachelor of Computer Applications (BCA) *Jun 2020 – Jul 2023*
Maulana Abul Kalam Azad University of Technology, West Bengal
CGPA: 9.05/10.0

Certifications

- MongoDB Node.js Developer Path *Aug 2023*
- Postman API Fundamental Student Expert *Aug 2023*
- Fullstack Program in Web Development *Dec 2023*
